Connecting to **bsusecure** using iOS

These instructions are for iPad, iPhone, and iPod Touch devices

- 1. Go to the Settings App
- 2. Select Wi-Fi
- 3. If the device is currently connected to "bsu" or "bsuguest", configure the device to forget the older networks before adding "bsusecure". This can be done by clicking on "bsu" or "bsuguest" and clicking Forget this Network
- 4. Select bsusecure
- 5. Enter Username and Password
- 6. Click Join on the keypad
- 7. Accept the SSL Certificate
