Greetings musicians!

The library’s new resource, OneSearch, offers the opportunity to search for recordings in the CD collection simultaneously with Naxos Music Library as well as for scores. MC staff are ready to help you learn the ropes. The Music Collection continues to strive to meet the very diverse needs of faculty, staff, and students. I think the new materials featured in this issue reflect that diversity.

OneSearch: A New, Powerful Tool!

OneSearch is a research tool for looking up one topic in many sources simultaneously: CardCat, WorldCat, and Ball State subscription databases, including Naxos Music Library.

You can limit the results to books, scholarly journals, or compact disc, music recording (Naxos), or score.

The sample to the right shows the break-down of formats for a search of “Eroica Symphony.” Note that book reviews and newspaper articles are automatically excluded.

You can also limit by language, date, subject, and articles or books online.
