ASSOCIATE IN SCIENCE

RADIATION THERAPY

ABOUT THE PROGRAM

This associate degree program prepares students for careers in Radiation Therapy. The Ball State University Radiation Therapy program is offered in cooperation with Methodist Hospital in Indianapolis. The program is divided into two phases and usually takes 2 to 3 years to complete.

The first, or preclinical, phase of the program takes place on the Ball State University campus and includes course work in the sciences and the University Core Curriculum program. The second, or clinical, phase of the program is offered in Indianapolis at Methodist Hospital with rotations to other clinical affiliate sites.

OCCUPATIONAL DESCRIPTION

Radiation therapists are highly skilled professionals qualified by education to use radiation to assist in treating cancer and other medical conditions.

The responsibilities of a radiation therapist can include performing radiation safety and quality control procedures; preparing immobilization devices; operating equipment; positioning patients for procedures; providing basic nursing and medical care; and preparing data for physician interpretation.

Radiation therapy departments are located mainly in hospitals. Employment opportunities also exist in free-standing therapy clinics, commercial sales, education, and management.

PROGRAM ADMISSION & APPLICATION

Students may enter the preclinical phase of this program (28 semester hours) upon admission to the University; however, admission to the University does not guarantee acceptance to the clinical phase of the program, which is a competitive process. Only the top-scoring applicants will be offered a spot in the clinical phase of the program. Students may apply for admission to the clinical portion of the program when the following requirements are met:

Must be a current Ball State student. · Any student must have been officially admitted by December 1 of the year immediately prior to the clinical phase of the program. · All transfer hours must be evaluated and appear on the DAPR (Degree Analysis Progress Report) and Ball State Must meet with Lisa Smith, Primary Dept. Advisor. · Call 765-285-5961 to schedule an appointment. · Required even if a Freshman Advisor has been seen. 14 hours of required courses are successfully completed 3 of 5 required math/science courses successfully completed "C" or better in required math/science courses 2.5 overall GPA in only required preclinical courses Must have read the most current Radiation Therapy Program Policies, Procedures, and Information and most current Check Sheet. If applying to the clinical phase of the program, it is assumed that this information has been read, and student will be held accountable for adhering to its content: www.bsu.edu/physiology-health/ radtherapy.

You must obtain a current program application and instructions from the Department of Physiology & Health Science office in CL 325. Complete the application, follow the instructions, and attach the following: 1) a current Ball State University DAPR (Degree Audit Progress Report), including fall semester grades and current registration for spring semester courses; 2) current, official BSU transcript, including fall semester grades and current registration for spring semester courses.

All information must be received in the Department of Physiology & Health Science office (CL 325) no later than 5:00 p.m. local time (EST) on the first business day of February each year. Incomplete application packets will not be considered. Due to the limited number of clinical phase spaces available, all students who meet minimum admission requirements may not be admitted to the clinical phase.

SFI FCTION

Applicants will be ranked using the following formula: (GPA of required preclinical courses x 8) + (GPA of required preclinical math/science courses x 17).

STUDENT CHECK SHEET

RADIATION THERAPY

Use this Check Sheet, along with your DAPR, to keep track of your progress.

PRECLINICAL PHASE—28 HRS

The preclinical phase includes 28 semester hours of general requirement credits. This phase of the program may be started during any semester; however, some courses may only be offered during certain semesters each year. All required courses must be taken for credit on a letter-grade basis, excluding courses accepted by Ball State for advanced standing or courses designated as credit/no credit.

At least 14 hours of the following ten (10) courses must be successfully earned (2.5 GPA overall in required courses) in order to apply to the clinical phase of the program by 5:00 p.m. local time (EST) on the first business day of February each year. Those 14 hours must include successful completion of at least 3 of the 5 math/science courses. All math/science courses must be completed with a grade of "C" or higher. Check off as requirement is completed. All ten (10) preclinical courses must be completed by the end of the spring semester prior to beginning the clinical phase of the program.

MATH/SCIENCE COURSES		GENERAL EDUCATION COURSES			
	ANAT 201	3 HRS	COMM 210	3 HRS	
	CHEM 100	3 HRS	CS 104	3 HRS	
	MATH 125	3 HRS	ENG 103	3 HRS	If taking ENG 101 &
	PHYC 100	3 HRS	PSYS 100	3 HRS	ENG 102, both must be completed to fulfill the
	PHYS 205	3 HRS	PFW	1 HR	requirement for ENG 103.

CLINICAL PHASE—36 HRS

The clinical phase of the program, which includes 36 semester hours, begins at Methodist Hospital in Indianapolis each May and runs four consecutive semesters. Students attend courses taught in classrooms and laboratories at Methodist Hospital. Clinical experience is obtained at Methodist Hospital and through rotations to other clinical affiliate sites. If a student is unable to complete the preclinical requirements by the time the clinical phase begins due to remedial courses, major change, etc., it will be necessary for the student to wait until the following year to apply.

PROGRAM ACCREDITATION

Ball State University is accredited by the North Central Association of Colleges and Schools. Upon graduation, students receive the Associate in Science Degree in Radiation Therapy. Program graduates are eligible to apply for the national certification examination administered by the American Registry of Radiologic Technologists (ARRT). Individuals who pass the examination are known as registered technologists, RT(T).

DISCLOSURE

Full disclosure of any ticket, citation, summons, arrest, charge or conviction for a misdemeanor or felony is required on the application to the clinical portion of the program. Individuals who have been charged or convicted of a misdemeanor or felony must preapply to the ARRT. Written preapproval to take the examination must be attached to the program application by the application deadline. Contact the Program Director for preapproval information well in advance of the program application deadline. Written preapproval may take up to 12 weeks to complete.
