This is a practical handbook, designed for easy reference and for readers with varied levels of experience with Classroom Assessment. Rather than reading it cover to cover, readers may want first to get an overview and an understanding of the purposes and uses of Classroom Assessment; they can then move directly to perusing and exploring the CATs that are most appropriate and interesting for their field of study and their personal teaching goals.

We believe that this handbook contains all the information, examples, and instructions needed by any instructor wishing to use Classroom Assessment in his or her own classroom. While our intention is to provide a self-contained guide that can be used independently, our experience suggests that Classroom Assessment is more effective, more intellectually engaging, and more fun when the assessment process is shared with colleagues. Comparing teaching goals on the TGI provides fascinating insights into one’s own priorities as well as those of colleagues in the same or different disciplines. The process of finding, adapting, and devising CATs that are especially appropriate to a particular class is more rewarding, and probably more productive, when shared with others. The process of interpreting the results of the analysis is usually enriched by the perspectives of colleagues and, of course, by those of students. Thus, we encourage the use of the handbook by individual faculty members and also by groups of teachers.

(Preface)
PART ONE: GETTING STARTED IN CLASSROOM ASSESSMENT

1. What Is Classroom Assessment?
   Purpose of Classroom Assessment
   Characteristics of Classroom Assessment
   Need for Classroom Assessment
   The Seven Basic Assumptions of Classroom Assessment

2. The Teaching Goals Inventory
   Background: Development of the Teaching Goals Inventory
   The Teaching Goals Inventory: Self-Scorable Version
   and Self-Scoring Worksheet
   Scoring the TGI: Items and Clusters
   Using your TGI Responses to Direct Classroom Assessments

3. First Steps
   The Values of Starting Small: A Three-Step Process
   Five Suggestions for a Successful Start
   Next Steps

4. Planning and Implementing Classroom Assessment Projects
   An Introduction to the Classroom Assessment Project Cycle
   Starting with Teaching Goals
   An Alternate Route: Starting with Questions
   The Classroom Assessment Project Cycle: A Detailed Look
   Ten Guidelines for Success and a Checklist for Avoiding Problems

5. Twelve Examples of Successful Projects
   Anthropology: Assessing Prior Knowledge, Recall, and Understanding
   Astronomy: Assessing Skill in Analysis and Critical Thinking
   Psychology: Assessing Skill in Application and Performance
   Mathematics: Assessing Skill in Problem Solving
   Political Science: Assessing Skill in Synthesis and Creative Thinking
   Criminal Justice: Assessing Students’ Awareness of Their Attitudes and Values
   Physical Education: Assessing Students’ Self-Awareness as Learners
   Speech Communication: Assessing Students’ Self-Awareness as Learners
   Nursing Education: Assessing Students’ Awareness of Their Attitudes and Values
   Statistics: Assessing Course-Related Learning and Study Skills, Strategies,
   and Behaviors
   Accounting: Assessing Learner Reactions to Teachers and Teaching
   Developmental Education: Assessing Learner Reactions to Class Activities,
   Assignments, and Materials
PART TWO: CLASSROOM ASSESSMENT TECHNIQUES

6. Choosing the Right Technique
   How to Find the Classroom Assessment Technique You Need
   Format Used to Present Classroom Assessment Techniques

7. Techniques for Assessing Course-Related Knowledge and Skills
   Assessing Prior Knowledge, Recall, and Understanding
   1. Background Knowledge Probe
   2. Focused Listing
   3. Misconception / Preconception Check
   4. Empty Outlines
   5. Memory Matrix
   6. Minute Paper
   7. Muddiest Point
   Assessing Skill in Analysis and Critical Thinking
   8. Categorizing Grid
   9. Defining Features Matrix
   10. Pro and Con Grid
   11. Content, Form, and Function Outlines
   12. Analytic Memos
   Assessing Skill in Synthesis and Creative Thinking
   13. One-Sentence Summary
   14. Word Journal
   15. Approximate Analogies
   16. Concept Maps
   17. Invented Dialogues
   18. Annotated Portfolios
   Assessing Skill in Problem Solving
   19. Problem Recognition Tasks
   20. What’s the Principle?
   21. Documented Problem Solutions
   22. Audio- and Videotaped Protocols
   Assessing Skill in Application and Performance
   23. Directed Paraphrasing
   24. Application Cards
   25. Student-Generated Test Questions
   26. Human Tableau or Class Modeling
   27. Paper or Project Prospectus
8. Techniques for Assessing Learner Attitudes, Values, and Self-Awareness

Assessing Student’s Awareness of Their Attitudes and Values
28. Classroom Opinion Polls
29. Double-Entry Journals
30. Profiles of Admirable Individuals
31. Everyday Ethical Dilemmas
32. Course-Related Self-Confidence Surveys

Assessing Students’ Self-Awareness as Learners
33. Focused Autobiographical Sketches
34. Interest / Knowledge / Skills Checklists
35. Goal Ranking and Matching
36. Self-Assessment of Ways of Learning

Assessing Course-Related Learning and Study Skills, Strategies, and Behaviors
37. Productive Study-Time Logs
38. Punctuated Lectures
39. Process Analysis
40. Diagnostic Learning Logs

9. Techniques for Assessing Learner Reactions to Instruction

Assessing Learner Reactions to Teachers and Teaching
41. Chain Notes
42. Electronic Mail Feedback
43. Teacher-Designed Feedback Forms
44. Group Instructional Feedback Technique
45. Classroom Assessment Quality Circles

Assessing Learner Reactions to Class Activities, Assignments, and Materials
46. RSQC2 (Recall, Summarize, Question, Comment, and Connect)
47. Group-Work Evaluations
48. Reading Rating Sheets
49. Assignment Assessments
50. Exam Evaluations

PART THREE: BUILDING ON WHAT WE HAVE LEARNED

10. Lessons and Insights from Six Years of Use
Lessons Learned from Our Own Research on the TGI
Lessons Learned from Reports by Faculty Participants
Faculty Views on Costs and Benefits of Classroom Assessment
Summary of Lessons Learned from Faculty Participants

11. Taking the Next Steps in Classroom Assessment and Research
Departmental Engagement in Classroom Research
Ventures into Learning Theory
