Friends Make A Difference

The Friends of the Rinard Orchid Greenhouse began as a dedicated group of volunteers and docents at the Dr. Joe and Alice Rinard Orchid Greenhouse. The group was formed in 2015, as a result of the desire to support and encourage educational programs and orchid diversity within the facility.

The purpose of the Friends is to maintain an association of persons interested in strengthening the Rinard Orchid Greenhouse (ROGH) by enhancing nature education and fostering greenhouse educational programs while promoting its usefulness to Ball State University, the Muncie-area community, Indiana, and beyond.

Examples of possible improvements include:

• Ball State University student involvement
• Enhance Immersive Learning opportunities for Ball State University students
• Expand the educational programs provided by Rinard Orchid Greenhouse
• Special events funding
• Community promotion
• Provide educational items to those who attend programs
• Create a brochure for tropical ecology education
• Purchase additional supplies for Rinard Orchid Greenhouse programs to support students, community and more.

All Friends of the Rinard Orchid Greenhouse receive a special invitation to make early purchases prior to the annual Fundraising Plant Sale.
