Greetings Musicians

This Fall there is big news from Naxos Music Library. They have added Sony Classical and Harmonia Mundi, two important CD labels. Having these labels available online frees up funds for CD purchases of more highly specialized music and for CDs by top artists who perform on other labels, so you get the best of both worlds.

— Amy Edmonds

Did you know you can publish your work online through the Libraries’ Cardinal Scholar website? You can upload documents yourself to share them with the world.

Here are some examples of original works (you must own the copyright) you can contribute:

- Published and unpublished papers
- Presentations
- Programs
- Course materials
- Guides
- Committee minutes, reports, and records
- Newsletters
- Compositions

You retain the copyright, and your works will be available forever on a secured server unless you decide to remove them.

For more information, contact John Straw in the Archives and Special Collections area: 765-285-5078

Sony Classical and Harmonia Mundi are the newest labels to join our online audio streaming database, Naxos Music Library (NML). Sony Classical boasts some of the top performers of the twentieth century in definitive performances. Harmonia Mundi specializes in early music but also includes modern works, such as Symphony No. 4 by Kevin Puts, who won the Pulitzer Prize for music last year for his opera, Silent Night.

The three Lower Level Mac Computers that have Finale have been upgraded for a faster user experience. In addition, the four PCs nearby continue to serve our students well. You may also check out MIDI controller keyboards and quality headphones from the Music Collection Counter.

Featured Book

The Voice and Voice Therapy, 9th edition
RF 540 .B66 2014 (4th Floor)

This medical textbook gives detailed diagrams and photos of the vocal cords in healthy and diseased states. Though the focus is on speech pathologies and treatments, singers would do well to know how their instrument works and how to keep it healthy. Vocal “faults” are also discussed.

Featured CDs

Glenn Gould in Moscow
Compact Disc 21669

On May 12, 1957, Glenn Gould performed two concerts in Moscow and then met with students of the Moscow Conservatory. He performed forbidden repertoire, including Berg’s Op. 1 piano sonata, Webern’s Piano Variations Op. 27 and two movements from a sonata by Krenek. This CD includes the performances and his spoken comments introducing the music.

Music for Video Games

Video games would be hollow and boring without their soundtracks, perhaps even more so than films. In the beginning of video gaming, the music consisted of simplistic midi-created jingles that sped up as the game progressed.

Today’s video games incorporate more artistry on all fronts, including music. Composers for film also compose for video games and vice versa. Real orchestras play the scores for the games and CDs of the games’ scenes are released with as much anticipation as the games themselves. The academic world is taking notice, as evidenced by the following:
