RESPIRATORY THERAPY PROGRAM
Indiana Respiratory Therapy Education Consortium

Documentation of Clinical Observation

Directions: Students applying to the respiratory therapy program are required to document a minimum of three (3) hours of clinical observation. You should contact the medical facility well in advance to schedule your observation. A list of facilities that have volunteered to provide this opportunity for students is available. However, the observation can also be done at a hospital near your home or school. This form should be taken with you and completed by the respiratory therapist at the time of your visit. After completion, it should be attached to your application.

*Please note – You must provide the clinical affiliate 24 hours notice if you need to cancel or reschedule. Failure to do so may adversely affect your application to the program. Please make arrangements for your observation by December 1.*

Student Name _______________________________________________________________

Hospital/Facility ______________________________________________________________

Date of Observation ___________________________________________________________

Starting Time _________________________________________________________________

Ending Time _________________________________________________________________

Name of therapist observed ____________________________________________________
