OFFICE OF ACADEMIC ADVISING – Request to remove from Handbook

Academic Advising at Ball State University is a service provided to assist students in meeting their educational goals. Recognizing that the needs of freshmen are substantially different from those of upperclassmen, the University offers a more comprehensive and personal advising program during the first year. For those students above the freshman level who have declared a program of study, faculty advisors in their discipline are assigned to aid in interpretation of major requirements. Although every effort is made to familiarize students with University requirements, academic progress is ultimately the responsibility of each individual student.

1. The Academic Advising Center

1.1 The Academic Advising Center, located on the third floor of North Quadrangle, is the center for the advising of all freshmen and certain other classifications of students. All students having between 0 and 30 hours are assigned to a professional academic advisor. If the student is a transfer student and has fewer than 30 semester hours completed, he or she is also advised through the Academic Advising Center.

1.2 The Academic Advising Center consists of Freshman Advising, Athletic Advising, Freshman Distinction/Honors Advising, and University College Advising.

2. Advising Center Coordinators

2.1 Advising Resource Centers are located in the Arts and Communications Building, Burkhardt Building, Cooper Physical Science Building, North Quadrangle, Robert Bell Building, Teachers College, and the Whitinger Building.

2.2 Each center is staffed by a professional advisor who acts as a center coordinator and is responsible primarily for the administration of the advising program and for data entry and file maintenance. The coordinator also serves as a resource person for faculty advisors regarding advising information, procedures, and techniques.

3. Faculty Advising

3.1 When students complete 30 or more hours or transfer 30 semester hours or more from another institution, they are assigned to a faculty advisor in their major area. If they are undecided on their major, they will remain with advisors in University College until a major is declared. Students who are athletes and/or distinction/honors have, in effect, two advisors: a faculty advisor in their major area and the Athletics Advisor and/or Distinction/Honors Advisor. For upperclassmen, faculty advising is the primary source of academic advising.

RE: Awarding of Posthumous Degrees and Certificates  
DATE: Oct 13, 2016  

The *Faculty and Professional Personnel Handbook* includes policies for the awarding of posthumous degrees and certificates of recognition at both the undergraduate and graduate levels. Those policies are listed below.

**POSTHUMOUS BACCALAUREATE DEGREES AND CERTIFICATES OF RECOGNITION**

1. At the recommendation of the appropriate college or department and approval of appropriate administrators:
   
   1.1 The Posthumous Baccalaureate Degree may be awarded to a student who had reached the senior level (Class Status 4) and was in good standing with the University at the time of death.

   1.2 A Certificate of Recognition may be awarded to a student at the freshman, sophomore, or junior level who was in good standing with the University at the time of death. The wording of the certificate shall be the responsibility of the nominating college or department.

   1.3 A Certificate of Recognition may be awarded to a student at any class level in good standing with the University who becomes permanently disabled due to illness or accident and is unlikely to be able to finish the degree.

**POSTHUMOUS GRADUATE DEGREES AND CERTIFICATES OF RECOGNITION**

1. At the recommendation of the appropriate academic unit and college, the Graduate Dean, and the Graduate Education Committee and the approval of appropriate administrators:

   1.1 The Posthumous Graduate Degree may be awarded to a student, who at the time of death:

   1.11 Was in good academic standing with the University;

   1.12 Had completed substantially all course work, i.e., had completed or was enrolled in the last semester of classes;

   1.13 Had progressed on any required dissertation, thesis, research paper, creative project, and/or internship to a point where the student’s committee (or advisor) feels confident that the project and/or internship would have been completed successfully.
1.2 A Certificate of Recognition may be awarded to a student enrolled in a graduate program at any level and in good academic standing with the University at the time of death. The wording of the certificate shall be the responsibility of the nominating academic unit.

1.3 A Certificate of Recognition may be awarded to a student enrolled in a graduate program and in good academic standing with the University who becomes permanently disabled due to illness or accident and is unlikely to be able to finish the degree. The wording of the certificate shall be the responsibility of the nominating college of academic unit.

2. The Provost or designee will have final approval.

Discussion with persons involved in the awarding of posthumous degrees and certificates of recognition has resulted in the following concerns:

1. While the process may need to be different at the undergraduate and graduate levels, having the entries in two separate locations in the handbook is confusing.
2. The undergraduate policy was put in place at a time when students did not typically enter the institution with significant transfer credit.
3. The policy does not specify appropriate administrators.
4. The undergraduate policy acknowledges “good standing” but the graduate policy identifies “academic good standing” creating confusion. Review of academic good standing would not include a review of any disciplinary actions or other potential situations resulting in a Hold on the student’s record.
5. Leaving the wording of the certificates of recognition solely to the “appropriate college or academic unit” is problematic.
6. The production of transcripts is blocked only when there is a hold on the transcript. Consequently, notation of the posthumous degree or certificate is recommended to deter identity theft.

Recommended Changes to FPPH

POSTHUMOUS DEGREES AND CERTIFICATES OF RECOGNITION

1. At the recommendation of the appropriate college or school/department and with the approval of the Provost or his/her designee and the President:

1.1 The Posthumous Baccalaureate Degree may be awarded to a student who had reached the senior level (Class Status 4), with at least 15 credits earned from Ball State, and who was in good standing with the University at the time of death.

1.11 If the student would be eligible for an academic honor, it will also be awarded.

1.2 The Posthumous Graduate Degree may be awarded to a student, who at the time of death:

1.21 Was in good standing with the University;

1.22 Had completed substantially all course work, i.e., had completed or was enrolled in the last semester of classes;
1.23 Had progressed on any required dissertation, thesis, research paper, creative project, and/or internship to a point where the student's committee (or advisor) feels confident that the project and/or internship would have been completed successfully.

1.3 A Certificate of Recognition may be awarded to a student at any class level who was in good standing with the University at the time of death. The wording of the certificate shall be the responsibility of the nominating college or department and approved by the Registrar and Provost (or their designees).

1.4 A Certificate of Recognition may be awarded to a student at any class level in good standing with the University who becomes permanently disabled due to illness or accident and is unlikely to be able to finish the degree. The wording of the certificate shall be the responsibility of the nominating college or department and approved by the Registrar and Provost (or their designees).

1.5 Degrees and certificates awarded posthumously will be so noted on the student’s official transcript.

1.6 Requests for posthumous degrees and certificates of recognition must be made within five years of last attendance.

Re: Proposal to change catalog and handbook policy as it relates to Incomplete grades

The admissions and credits committee has recommended the following revision to the university policy on grades. In short, this policy modification allows “I” grades originating from CR/NC enrollments to revert to the original grading method rather than F after the deadline for resolving “I” grades passes.

Catalog Revision

Proposed change:

CR is recorded for students registered under credit/no credit provisions who do work that is 2.0 or above.
NC is recorded for students registered under credit/no credit provisions who do work that is below 2.0.

I represents incomplete work and is given only when it is determined that the student should be given an opportunity to finish the work. The instructor, along with the department chairperson, decides whether to award an incomplete grade in a course and outlines the requirements and time limit for completing the work. It is most important that the conditions for removing the I be as specific as possible. Removal of an I grade should be limited to as short a period as possible. CR/NC enrollments will expire to become a failing grade as defined by the grading method. All other enrollments expire to an F grade. Unless an earlier completion date is specified by the instructor, an I grade awarded for an undergraduate course will expire as follows: for Fall enrollment, by May 1; for Spring and/or Summer enrollment, by December 1. An exception is made when an extension on the timeline has been recommended by a department chairperson and approved by the appropriate dean. The Registrar’s Office will send an email reminder to the student and to the instructor of an I grade on the student record on or about the 15th of each month.
