Ball State University Alumni Association Outstanding Black Alumni Award

This award is presented to an alumnus who has made significant contributions in his/her professional field, has demonstrated significant activity in public service to his/her own community, district, or state, and has provided service to other organizations including the University and the Alumni Association. This award shall be all-inclusive and not tied to any one profession. The overall accomplishments of the alumnus since graduation will weigh heavily in the consideration of this award.

Any black alumnus receiving this award must hold a Ball State University degree. This requirement may be waived, however, if a non-degree nominee receives approval of two-thirds of the Black Alumni Constituent Society Board of Directors. A maximum of three Outstanding Black Alumni Awards awards may be made in any two years. The award committee should not feel obligated to award the maximum.

A current member of the Black Alumni Constituent Society Board of Directors or the Ball State University Alumni Council may not receive the award until such time as their term of service is complete.
