

BALL STATE EMPLOYEE  
**QuickClinic**

765-285-1106

With convenience at its core, QuickClinic provides medical care for common illnesses and minor injuries during the week to Ball State University employees, spouses and their dependents older than 2.

Ball State University Employee QuickClinic is staffed by Certified Family Nurse Practitioners with training and experience in family medicine. These practitioners can diagnose and treat most common illnesses and prescribe any required medications.

No co-insurance or deductible will be required for employees using the clinic who have the Ball State low deductible or high deductible wellness option PPO as their primary health plan. All employees, spouses, dependents and retirees who are not covered under these plans are welcome but must pay in full at time of service.

For questions please call 765-285-1106.
