**Blue House Installation
A Resolution
Adopted April 9, 2012**

Whereas Ball State University continues to gain international recognition for its sustainability efforts, and;

Whereas Ball State University has made great strides in energy conservation with the installation of the Geothermal Project, and;

Whereas Ball State University must consider water systems management as another avenue of opportunity,

Now therefore be it resolved that the Ball State University Council on the Environment endorses the installation of an Organica BlueHouse on campus for educational and research purposes.
