

Flu Shots now available at the Quick Clinic!

Flu vaccines are now available at the Ball State Employee Quick clinic at no cost for employees and family members covered under the Ball State Low Deductible or High Deductible Wellness option PPO health plans. Vaccines are available for ages 4 and up.

Flu vaccines are available during regular walk-in hours, 7:30 a.m. to 5:15 p.m., Tuesday, Thursday and Friday.

Employees and family members covered under the Ball State High Deductible HSA Qualified Plan may also get their flu shots at the Quick Clinic. However, if their out-of-pocket maximum has not been satisfied they will be billed for the cost.

To avoid out-of-pocket cost, we encourage employees and families in the High Deductible/HSA Qualified Plan (Account #0079 on your insurance card) to get their flu shots through the Medco Retail Vaccine Program at a retail pharmacy. Details on the Medco Retail Vaccine Program can be found on this website.

****Must bring Driver's License and current Insurance Card in order to receive flu vaccine.***
