**Preferred Prescriptions<sup>®</sup> /  
RX Selections<sup>™</sup>  
Member Guide**

Please bring this guide with you on your next doctor visit.

Medco manages your prescription drug benefit for your health plan.

**Preferred Prescriptions®/RX Selections™** is a formulary list of medications that may be covered under your prescription drug plan. This list was reviewed by an independent group of practicing doctors and pharmacists, and it contains medications made by most pharmaceutical manufacturers. It includes medications for many covered conditions.

## **SAVING MONEY ON PRESCRIPTIONS**

Your plan may prefer some medications over others. These are called *preferred drugs*.

*You may pay:*

- Lowest co-payment/co-insurance for generic drugs
- Higher co-payment/co-insurance for preferred brand-name drugs
- Highest co-payment/co-insurance for nonpreferred brand-name drugs

**Your doctor may be able to help you save money by prescribing generic and preferred brand-name drugs if appropriate. So be sure to bring this guide with you on every visit to your doctor. Some commonly prescribed nonpreferred drugs are also listed in this guide for your reference.**

**Please note:** This guide does not contain a complete list of formulary and nonformulary drugs. It only lists the *most commonly prescribed drugs*. Visit **[www.medco.com](http://www.medco.com)** anytime to check the price and coverage of medications under your plan. Simply select “Price a medication” from the left hand menu and search for your medication to see pricing. Click “View coverage notes” on the pricing results page to see any coverage details. If you are a first-time visitor to [medco.com](http://medco.com), please take a moment to register. (Be sure to have your member ID number and a recent prescription number handy.) Not all medications listed here are covered by every prescription drug plan.

## FINDING MEDICATIONS WITH LOWER CO-PAYMENTS/CO-INSURANCE

This guide lists medications two ways to help you find some generic, preferred, and nonpreferred brand-name drugs.

### SECTION I - ALPHABETICALLY BY DRUG CATEGORY (SUCH AS RESPIRATORY)

Within each category, medications are listed in alphabetical order, with generic, preferred brand-name, and nonpreferred brand-name drugs sorted separately:

- G Means a preferred generic medication
- P Means a preferred brand-name medication
- NP Means a nonpreferred brand-name medication

### SECTION II - ALPHABETICALLY BY BRAND NAME

After each nonpreferred brand-name drug, you will find possible generic and preferred brand-name alternatives.

## SAFETY CONSIDERATION SYMBOLS

Here is a quick guide for you and your doctor, which explains our safety symbols. These symbols appear next to certain medications.

-  Means weigh risk of birth defects or other adverse outcomes.
-  Means do not use in pregnancy.

*The information in this guide was in effect at the time of printing and may be subject to change.*
