RETIREE CONTACT NUMBERS AND INFORMATION

It is necessary to file an application for Social Security and Medicare since benefits are not paid automatically. If not already enrolled, you will need an approximate lead time of three months before getting started. You should visit the Social Security Administration office to file your application.

Social Security Administration (local office) 600 N. Walnut Street, Muncie 1-866-964-7586

The Medicare program consists of four parts:

- Part A Hospital Insurance Benefits
- Part B Supplementary Medical Insurance Benefits
- Part C Medicare Advantage*
- Part D Prescription Drug Coverage*

The primary focus of Part A coverage is inpatient services provided by such entities as hospitals, nursing homes, home health agencies, and hospices.

Medicare Part B supplements hospital insurance coverage by covering services of physicians and other health care practitioners, outpatient services, and medical supplies and equipment.

Medicare Advantage gives beneficiaries the option to join a managed care health plan rather than Medicare fee-for-service, which is the "original Medicare" coverage and payment plan.

Medicare Part D provides beneficiaries with prescription drug coverage at reduced cost.
