The Ball State University Planetarium

Presents a Special Children's Matinee

George and Oatmeal Save Santa

Saturday, December 8 & 15, 2012 - 3:00 P.M.

Santa fails to return home after delivering toys to children around the world. It is up to a Snowman named Oatmeal and a wizard named George to find Santa and help him find his way home. They do this by learning about the Big and Little Dippers and the North Star.

This program is best suited for children pre-K to third grade.

The Planetarium shows are **free** of charge. **NO tickets are required**, but seating is limited. Plan to arrive early for the best seats. The Planetarium is located in the southeast corner of the lower level of the Cooper Science Building (room CP 90). Parking is available on the West end of the building and along Riverside Avenue on the North side of Christy Woods. No one will be admitted after the program begins. **Children should be accompanied by an adult**. Each showing is approximately 30 minutes long.
