HR-TMS Training Guide: Professional
Human Resource’s Talent Management System
Human Resource’s Talent Management System (HR-TMS)  
and PeopleAdmin

As we embrace our role as a model 21st century public research university, we envision our recruitment and hiring practices to be more efficient and convenient for both applicants and hiring managers at Ball State University. We are therefore pleased to be implementing Human Resource’s online Talent Management System (HR-TMS).

HR-TMS enhances the applicant experience by giving those interested in employment opportunities at Ball State University the ability to apply for positions 24/7 anytime, anywhere, through an online applicant portal. It also allows hiring managers the online ability to create and maintain job descriptions for their areas, create job postings, view a candidate’s application materials, and hire employees.

The online system, HR-TMS, is hosted by PeopleAdmin. PeopleAdmin’s mission is “To help government and education build a better future by providing leading talent management solutions that connect the right people to the right jobs.” They focus exclusively on education and government and have cultivated a deep understanding of the needs within these two sectors, which has enabled them to add value to their customers and the communities they support. They are proud to be a recognized leader in talent management solutions designed specifically for education and government. PeopleAdmin works with more than 700 institutions of higher education and has received numerous awards (http://www.peopleadmin.com/).

It is with great enthusiasm that we present the Professional portion of the applicant portal along with the Professional applicant tracking modules. We are pleased to offer you this step-by-step training manual for the Professional portion of HR-TMS.

Should you have any questions about this exciting HR online recruitment initiative or need assistance in completing an action in the HR-TMS, please email:
